EDUCATION

Columbia University

May 2024

B.S. in Computer Science

3.8 GPA, Dean's List

LEADERSHIP

Design at Columbia

Events Lead

Taiwanese American Student Association

Media Chair

EXPERIENCE

The Bulletin

Product Designer

September 2023 - Present

Designing and prototyping in Figma for both web and mobile experiences, collaborating closely with developers to ensure seamless implementation. I conduct user research and usability testing to inform design decisions and refine user experiences iteratively. Furthermore, I create comprehensive style guides to maintain consistency and coherence across all product elements

ExpertVoice

Product Design Intern

June 2023 - August 2023

Designed an innovative GPT-4 powered chatbot in Figma and conducted 5 user interviews and usability testing sessions to refine the product's user experience. Presented progress updates to executive leadership throughout the internship tenure. Additionally, led the redesign of the Android shopping interface, collaborating closely with engineers, QAs, and the product manager to ensure seamless integration and alignment with strategic goals.

Infinite Goods

Product Designer

June 2022 - May 2023

At an early-stage startup, played a pivotal role in shaping the website's core elements using Figma, such as the Eco-label. Worked cross-functionally, collaborating with engineers, the product manager, and the CEO to ensure seamless execution of deliverables.

Columbia University

Teaching Assistant

January 2024 - Present

I provide feedback, assist students, and grade assignments for Professor Harry West's Human Centered Design course. I offer constructive feedback on design work, helping students refine their ideas and approaches.

SKILLS

Technical

Figma, HTML, CSS, JavaScript, Python, Java, C, SolidWorks, Flask

Soft

User research, usability testing, cross-functional collaboration, Agile, leadership, presentations
